

First Announcement

BANFF/2009 PIPELINE WORKSHOP

Managing Pipeline Integrity - The 10th Workshop

**April 5 - 9, 2009
Tutorials: April 6, 2009**

Banff Centre for Conferences
Banff, Alberta, Canada

For further information, please contact:

Winston Revie
CANMET Materials Technology Laboratory
Natural Resources Canada
568 Booth Street
Ottawa, Ontario K1A 0G1
Canada

Telephone: (613) 992-1703
FAX: (613) 992-8735

Banff/2009 Pipeline Workshop: Managing Pipeline Integrity

If you would like to receive the next Announcement, please complete this form and return it to Winston Revie by e-mail: wrevie@nrcan.gc.ca or by FAX: 613-992-8735.

Name: _____

Title: _____

Organization: _____

Postal Address: _____

Telephone: () _____ FAX () _____

e-mail address: _____

My main objective and specific interests in attending the Workshop are:

Please indicate your interest in the following tutorial topics (1 - highest interest; 2 - some interest; 3 - no interest):

- | | |
|---|---|
| <input type="checkbox"/> Strain-Based Design (LSD) | <input type="checkbox"/> Measurement Errors in ILI and Field Tools |
| <input type="checkbox"/> Fitness for Service | <input type="checkbox"/> Developing an Integrity Management Program |
| <input type="checkbox"/> Direct Assessment | <input type="checkbox"/> Engineering Critical Assessment |
| <input type="checkbox"/> In-Line Inspection | <input type="checkbox"/> Risk Assessment/Risk Management |
| <input type="checkbox"/> Non-intrusive Monitoring | <input type="checkbox"/> Alternative Integrity Validation (AIV) |
| <input type="checkbox"/> Pipeline Coatings | <input type="checkbox"/> Stress Corrosion Cracking (SCC) |
| <input type="checkbox"/> AC Corrosion | <input type="checkbox"/> Tubing Corrosion (Downhole) |
| <input type="checkbox"/> Remote Sensing | |
| <input type="checkbox"/> Integrity Management to Control Internal Corrosion | |
| <input type="checkbox"/> Data Management to Support Integrity Management | |
| <input type="checkbox"/> Application of GIS Technologies to Integrity Management | |
| <input type="checkbox"/> Microbiologically Influenced Corrosion (MIC) | |
| <input type="checkbox"/> High-Strength Steels, including operational issues, weldability, coating, and repair | |
| <input type="checkbox"/> Accident Investigation—Methodology for People, Equipment, Operations, Environment | |

Other topic(s) of interest for tutorials: _____

Please indicate your interest in the following Working Groups (1 - highest interest; 2 - some interest; 3 - no interest):

- | | |
|---|--|
| <input type="checkbox"/> Issues for Managers | <input type="checkbox"/> Regulatory Developments |
| <input type="checkbox"/> Materials Requirements in Sour Service | <input type="checkbox"/> Inspection Technologies |
| <input type="checkbox"/> Geotechnical | <input type="checkbox"/> Coatings |
| <input type="checkbox"/> Internal Corrosion | <input type="checkbox"/> External Corrosion |
| <input type="checkbox"/> Management of Stress Corrosion Cracking | <input type="checkbox"/> Northern Pipelines |
| <input type="checkbox"/> Pipeline Risk Assessment/Risk Management | <input type="checkbox"/> Offshore Pipelines |
| <input type="checkbox"/> Tubing Corrosion (Downhole) | <input type="checkbox"/> Safety in the Workplace |
| <input type="checkbox"/> Facilities Integrity Management | |
| <input type="checkbox"/> Upstream Pipelines: Inspection, Corrosion and Integrity Management | |
| <input type="checkbox"/> Control & Monitoring Systems (including SCADA) | |
| <input type="checkbox"/> Design, Materials, Construction, Repair and Maintenance | |

Other topic(s) of interest for Working Groups: _____
